

По примеру создаю лист итем и вставляю свою фотку

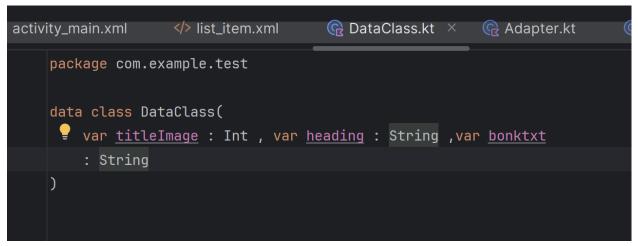

Лист итем

```
om.google.android.malerial.imageview.Snapeableimageview
    android:id="@+id/imageItem"
    android:layout_width="80dp"
    android:layout_height="80dp"
    android:src="@drawable/ic_launcher_background"
    app:layout_constraintStart_toStartOf="parent"
    app:layout_constraintTop_toTopOf="parent" />
<TextView
    android:id="@+id/txtItem"
    android:layout_width="0dp"
    android:layout_height="wrap_content"
    android:text="Cat u r not funny "
    android:layout_marginStart="20dp"
    android:textColor="@color/black"
    android:textSize="16sp"
    android:textStyle="bold"
    app:layout_constraintEnd_toEndOf="parent"
    app:layout_constraintStart_toEndOf="@+id/imageItem"
    app:layout_constraintTop_toTopOf="parent" />
<TextView
    android:id="@+id/txtBonk"
    android:layout_width="0dp"
    android:layout_height="wrap_content"
    android:layout_marginStart="20dp"
```

```
 activity_main.xml
                         list_item.xml
                                             @ DataClass.kt
                                                                                     @ MainActivity.kt
                                                                                                            \mathcal{L}^{\mathfrak{I}}_{\mathbb{K}} build.
                                                                  Region Adapter.kt ×
